I am going to the Frontiers of Flight Museum.

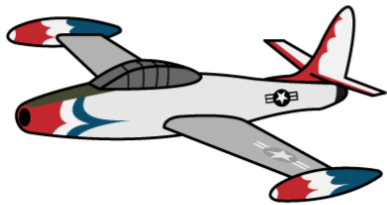

There is a parking lot.

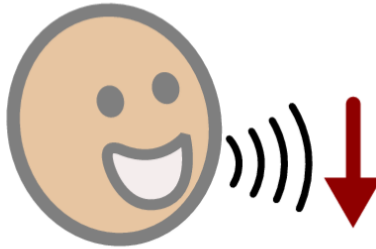

Signs and maps help me find my way around.

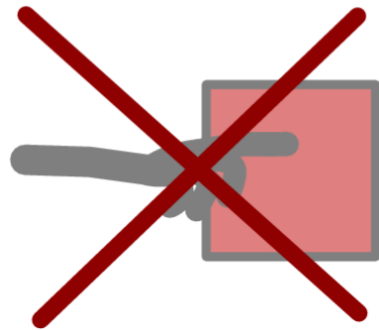

People will stop and look at planes and a spacecraft.

I can talk about the planes in a quiet voice.

We shouldn't touch the planes because they are special.

There is a plane I can get inside of.

I can ask a Red Vest Volunteer for help.

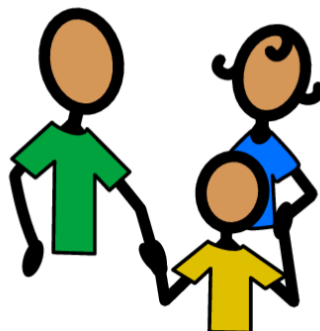

If there are loud sounds, I can wear headphones.

Sometimes, I need to use the restroom.

If I stay close to my group I won't get lost.

Today was a good day!
