

Sometimes I need to use the bathroom in public.

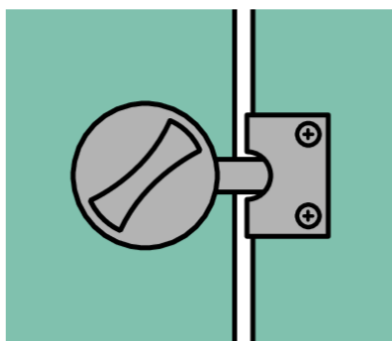

There is a picture on the door that tells me which one I go into.

I find an empty stall.

There is a lock so other people don't go in.

I pull my clothes down before I go.

I clean myself by wiping then tossing the paper into the toilet.

I pull my clothes back on.

Pushing the lever makes it flush, sometimes it flushes by itself.

Sometimes it's loud, I can leave the stall now.

Washing my hands in the sink for 20 seconds helps me stay clean.

Then I dry my hands with a paper towel and throw it away.

I used a public restroom!
